

Obligatory toll in Austria for vehicles with a MATW of, or less than, 3.5 t

All motor vehicles using Austrian motorways and expressways are subject to toll payment. The type of toll collection depends on the maximum admissible total weight of the vehicle.

Toll stickers must be attached to vehicles with a MATW¹⁾ of up to and including 3.5 t (passenger cars, motorcycles, motor homes). With respect to motor vehicles with trailers, toll rates depend only on the maximum admissible total weight of the towing vehicle (no sticker required for trailers).

Trucks, busses and motor homes with a MATW¹⁾ of more than 3.5 t are subject to distance-dependent toll and require a GO Box (see below)!

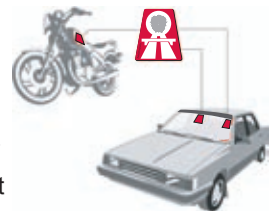

Toll stickers are not required for the **six special toll sections**: the Bosruck tunnel (A 9), Gleinalm tunnel (A 9), Tauern/Katschberg tunnel (A 10), Karawanken tunnel (A 11), Arlberg road tunnel (S 16), and Brenner motorway (A 13). However, mandatory toll is collected on these routes as well. This toll has to be paid directly at the respective toll stations.

What to do before starting trips

For vehicles up to a MATW¹⁾ of 3.5 t, a toll sticker must be acquired **prior to using the motorways and expressways**. Annual and short-term (2-month and 10-day) stick-

ers are available. The toll sticker has to be attached properly and visibly onto the inside of the windscreen. With reference to motorcycles, toll stickers have to be attached to parts of motorbikes that cannot be easily exchanged. Short-term toll stickers have to be perforated by the point of sale before attaching them. Toll stickers that are not perforated or attached to the vehicle are invalid!

Toll stickers are available at petrol stations, motorist clubs, toll stations, and the ASFINAG Toll Service Center at Brenner Pass (A 13) and at tobacconist stores ("Tabak-traffic").

Toll stickers are inspected by police officers and the ASFINAG enforcement officers. Substitute toll must be paid on the spot in the event that toll has not been duly paid.

For further information on toll stickers and the current toll rates please refer to **www.asfinag.at**

¹⁾ MATW = maximum admissible total weight

Obligatory toll in Austria for vehicles with a MATW exceeding 3.5 t

For vehicles with a MATW¹⁾ exceeding 3.5 t (trucks, busses and heavy-duty mobile homes), **distance-dependent** toll has to be paid, which is collected exclusively by means of an electronic tolling system. Therefore, motor vehicles above that weight limit must carry an on-board unit called GO-Box that has been attached properly to the inside of the windscreen **prior to using motorways and expressways**. A GO-Box has to be acquired for each vehicle licence plate. The number of axles and kilometers travelled determine the actual toll rate. An increased kilometer rate applies to the six special toll sections (see below).

GO-Boxes can be acquired, charged and returned at any **GO Point of Sale** (primarily at petrol stations, motorist clubs, toll stations and the ASFINAG Toll Service Center at the Brenner Pass on A 13).

How to pay GO toll

Pre-Pay (payment in advance): The toll credit is stored on the GO-Box and has to be paid in advance, similar to prepaid phone cards. Apart from cash, several fuel and credit cards as well as Maestro cards are admitted as means of payment.

Post-Pay (payment at a later date): All toll transactions are charged after having used the road network. Invoicing is effected either directly by ASFINAG via GO Direkt or a fuel, credit or debit card. Whether or not a card is admitted as a means of payment in the Post-Pay procedure depends on the approval by the card company. Payment via GO Direkt requires conclusion of a contract with ASFINAG in advance.

In case that the distance-dependent toll for trucks and busses has not been paid properly, ASFINAG enforcement officers will collect substitute toll on the spot.

For further information, the current GO toll rates, the list of points of sale and the Toll Regulation please refer to **www.go-maut.at** and **www.asfinag.at**

ASFINAG Service Hotline for further inquiries on the toll sticker and GO-Box:

from Austria, Germany, Switzerland: 0800 400 11 400

from all other countries: 00800 400 11 400
