IRELAND South & North. Lorry Parks, Truck Stops, Transport Cafes, Truck Washes northern & Southern Ireland

Whilst Ireland does not have a history of Transport Cafes, Truck Stops or Lorry Parks, but rather out of the main towns Inns which serve all customers,,, I am not aware of current HGV parking facilities at such establishments. Any information would be very helpful. If you have an establishment that you wish to advertise/promote please send me your details for permanent inclusion. DRIVERS OR VISITORS CAN SEND ME DETAILS OF ANY LORRY PARK, TRUCK STOP OR TRANSPORT CAFE FOR INCLUSION, PLEASE INCLUDE A PHONE NUMBER AND NAME. Transportcafe.co.uk appreciates that it will be difficult to provide a reasonable list of facilities in Ireland north or south, we don't differentiate between either, however we must try and as a result of the input

Junction 14 Mayfield is a brand new independently-owned Motorway Service Area that is the culmination of 8 years of work and a 7 million euro investment by local businessmen Donal and Liam Fitzpatrick from Monasterevin, Co. Kildare. This is the first privately promoted Motorway Service Area to be built and opened in Ireland. It is also the only motorway service area that can be accessed from both sides of the motorway, both north and southbound, as it is situated at a full junction.

Junction 14 Mayfield benefits from advance information signs on the M7

motorway in both directions. Junction 14 Mayfield, which opens this Friday, June 17, will provide the most up-to-date motorway service point facilities for the discerning Irish motorist and trucker.

The new Junction 14 Mayfield is a brand new motorway food area that will cater for every need from a short stop to a full meal. The franchises in place include Supermac's open from 11am to 11pm, Insomnia and Spar Express. The Junction 14 Mayfield Food Service Counter opens from 6 am-9pm and will provide the option of a traditional high class deli or a carvery service, all giving motorway users a wide choice of quality food. And there's free WiFi access in the service area.

Junction 14 Mayfield will provide 24 hour fuel and toilet facilities. The service point has 12 car and van fuel filling points for quick fuelling. The dedicated truck fuelling area can fuel four trucks at any one time with a high speed fuelling pump system. This is supported by dedicated AdBlue pumps on the forecourt for truckers.

Junction 14 Mayfield will provide an ESB eCars electric car charging facility for up to four cars at one time. This system has scope for expansion as this new clean mode of transport becomes more
